

FAMOUS AFRICAN AMERICAN REPORT

Each student will choose one great famous black American to research and write about. This is a poster project. There is a finished sample attached along with all the pieces you can use to create the poster. You will need scissors, crayons and tape or a gluestick. If you do not have access to these supplies, let me know I will let you borrow some to take home for the project.

The directions for the project are listed on the following page.

The project is designed to be completed with adult support. The students should do the pictures and writing. Parent support will be needed in finding, understanding and organizing the information. Here are some suggestions of famous African Americans. You may choose one from the list below, but you do not have to.
