

# September

|               | Monday   | Tuesday   | Wednesday  | Thursday   |
|---------------|--|---|--|--|
| <b>Week 1</b> | No School<br>Labor Day   | Count the number of TV's, computers and stereos in your house. Show how many of each with tally marks.                                | Discuss with your family ways that a football game and basketball game are alike and different. Challenge: Make a Venn diagram   | Count out loud from 1-50. Count backward from 20-1.                  |
| <b>Week 2</b> | Find things in your house that are shaped like a circle, square, and rectangle.                          | Locate and count all the clocks in your house. How many digital? How many analog?   | The setting of a story is the place or location that the story occurs. Tell someone the setting of Goldilocks, and Finding Nemo. | How many sit-ups can you do in one minute? Have a grown-up time you. |
| <b>Week 3</b> | Take the numbers in your house address. Now put them in order from smallest to largest?                  | Make a tally mark chart to show the number of spoons, forks and knives that are in your kitchen drawer.                               | Make a list of letters in the alphabet that are consonants. Make a list of letters that are vowels.                              | Count by 5's to 40. Count by 2's to 20.                              |
| <b>Week 4</b> | Make a list of all the words you can spell on your own without any help? Can you write 10? How about 25? | Solve It!<br>There were three (3) horses in the field. I gave each horse two (2) carrots. How many carrots did I give out altogether? | Look for things in your room, kitchen and yard that begin with the letter s.   | Tell someone in your house how to play <i>Number Line Squeeze</i> .  |
